## PORTFOLIO

### PROFESSIONAL SUMMARY

- Unity Developer specialized in Augmented Reality (AR), Virtual Reality (VR), and interactive applications.
- Experienced in building immersive solutions for mobile, educational and enterprise environments.
- Strong focus on performance optimization, user experience and scalable interactive systems.

### LANGUAGES

- Spanish: Native
- English: Intermediate (Technical)

### EDUCATION

Bachelor's Degree in Computer Science.  
IPN – UPIICSA  
2014 – 2019

### CERTIFICATIONS

- Scrum Fundamentals Certified
- ITIL Fundamentals

### HOBBY

Music  
Leer  
Board games  
Video games

## PROFESSIONAL EXPERIENCE

### ► Unity / AR Developer – Xpertme March 2023 – Present

- Developed internal mobile applications using Unity.
- Implemented interactive solutions focused on usability and performance.
- Optimized applications for Android, iOS, desktop, and VR (Oculus).

### ► AR/VR Developer – Sumeru March 2022 – January 2023

- Developed AR and VR applications using Unity and Three.js.
- Built interactive experiences for enterprise clients.
- Integrated 3D content into web and mobile environments.

### ► Unity Developer – Webxsp June 2018 – March 2021

- Developed AR/VR applications for clients such as FEMSA, Bimbo, and Kanan.
- Created interactive experiences for marketing and visualization.
- Improved performance and optimization of VR applications.

### ► VR Experience Developer – IPN Planetarium December 2017 – February 2018

- Developed a virtual tour application using 360° content.
- Implemented immersive educational experiences.

### ► Hackathon Project – Campus Party June 2017

- Developed a project focused on financial inclusion.
- Designed an application to promote access to financial services for young users.

### ► Digital Production – IPN Planetarium August 2017

- Participated in full dome production workshop.
- Used tools such as 3ds Max and After Effects.

### ► VR Developer (Research) – IPN UPIICSA May 2017 – December 2017

- Developed recreational VR applications for educational purposes.
- Conducted research on immersive learning experiences.

## TECHNICAL SKILLS

### Engines & Programming:

Unity (Advanced, 5+ years)  
C# (Advanced)  
JavaScript (Intermediate)  
Node js.

### Technologies:

Augmented Reality (ARCore, Vuforia)  
Virtual Reality (VR)  
Three.js  
WebGL  
Arduino

### 3D & Graphics:

Blender (3D Modeling)  
Shader Graph / HLSL  
Basic Animation

### Tools:

Adobe Illustrator  
Photoshop  
After Effects
